

2025 Subject Index

Title	Page
Analysis of the correlation between COVID-19 infection frequency and disease severity and mortality in relation to ABO and RH blood groups	22
Can long-term treatment of Hashimoto's thyroiditis effectively improve sexual dysfunction in women	43
Carbapenem resistance profile of Escherichia coli and Klebsiella pneumoniae in our hospital	26
Comparative analysis of human telomerase reverse transcriptase mutation in transitional epithelial cell bladder cancer in high and low grade tumors	10
Coronary artery anomalies: clinical overview, diagnostic strategies, and management	82
Efficiency of ledipasvir/sofosbuvir treatment in hepatitis C virus	48
Epstein-Barr virus RNA percentage and its impact on prognosis in patients with diffuse large B-cell lymphoma	15
Evaluation of cardiovascular, bone mineral, and hematological disorders in chronic hemodialysis patients	77
Evaluation of pulmonary artery pressure variations in end stage renal disease patients before and after renal transplantation	1
Evaluation of the association between thyroid hormone levels and coronary slow flow in euthyroid patients: a retrospective study	73
Evaluation of the impact of nutritional parameters on mortality in patients with multiple myeloma	30
Frailty scoring systems in clinical practice: are we underdiagnosing?	88
From hypothyroidism to Graves' disease during pregnancy: a case of thyrotoxicosis following long-term hypothyroidism	85
Magnesium, calcium and vitamin D levels in polycystic ovarian syndrome: a retrospective single center study	5
Monitoring antibiotic resistance with a cumulative antibiogram in a university hospital	53
Obstructive sleep apnea and comorbidities: a current perspective from diagnosis to treatment	64
Prognostic role of hemoglobin, albumin, lymphocyte, platelet (HALP) and modified Glasgow Prognostic Score (mGPS) in predicting intensive care needs in cancer patients: a retrospective study	36
Retroperitoneal hematoma complicated with colocutaneous fistula in a case of severe hemophilia B	41
The analysis of patients with diagnose of acute pancreatitis: a retrospective single center study	58
Vulvar and vaginal graft versus host disease in a patient with chronic phase chronic myeloid leukemia after allogeneic stem cell transplantation	19
